# Questions Submitted by HOA members

**Candidates were asked to address at least two of the following:**

- **Topic – Priorities:** To provide maximum benefit to your constituency if you are elected, what would your top priority be if you could only accomplish a single objective during your tenure?
- **Topic – Legislation with local impact:** An amendment was attached to House Bill 447 in the Tennessee General Assembly, which passed, just before the session ended. The current law states that a liquor store can only be licensed in an incorporated community, and Tellico Village is not an incorporated community. The amendment allows the POA to operate a liquor store in the Village. What is your opinion about this change?
- **Topic – Keeping Tellico Village Involved:** In both Loudon & Monroe counties, Tellico Village contributes significant property tax dollars, new home growth, sales tax, and employment for services. Yet we're not eligible for federal or state funding, nor other benefits, in part because we're not incorporated. If elected, how would you address this?

- Beginning early June, this program will move onto its next phase:
  - Over time, articles will be published in the Tell-E-Gram featuring every Tellico Village Alliance Member business
  - Targeted, new, non competitive businesses will be solicited as specifically directed by multiple surveys of Village residents
- In net, we strongly believe that the “Shop Tellico Village” program will prove to be a “win-win-win” for everyone involved:
  - Current Tellico Village Business Alliance Member businesses will win
  - Specific, non-competitive new businesses solicited into the Village will win
  - And, most importantly, the residents of Tellico Village will win
