Amanda Snowden | Regional Director of Operations
TDOT/Region One
7345 Region Lane,
Knoxville, TN 37914

Dear Ms. Snowden;

I am writing to ask you to address a concern expressed by residents of Tellico Village regarding the safety and effectiveness of highway guardrails.

Parts of the golf cart path for the Tanasi golf course in Tellico Village run through two tunnels under State Road 444. There are steel guardrails along the road above these tunnels. The concern is that the guardrails may not be adequate to prevent vehicles from breaking through those barriers and falling onto the golf cart path below. Residents have expressed the same concern for a segment of the cart path that runs parallel to the highway near the ninth green of the Tanasi course.

Is there anything that can or should be done to enhance the safety and effectiveness of those guardrails?

I look forward to your response.

Sincerely,

Dennis Stanczuk
Chairman
Tellico Village HOA/POA TDOT Liaison Committee
